

REMARKS

Claims 1-10 have been canceled without prejudice, and replaced by new claims 18-25. Claims 11-25 are currently pending. Reexamination and allowance of the pending claims is respectfully requested.

First, the allowance of claims 11-17 is gratefully acknowledged.

Second, claims 1-10 stand rejected under 35 USC 102(b) or 35 USC 103(a) in view of Applicant's admitted prior art as shown in FIGS. 1A and 1B ("APA"). This rejection is respectfully traversed with respect to new claims 18-25.

New independent claim 18 recites, among other limitations, that the main body has a back seat 214 and a main seat body 213, and that the adjusting device 25 adjusts the angle of the back seat 214 with respect to the main seat body 213. In contrast, the APA does not teach or suggest the adjustment of two different portions of the main body of the module 1. The only adjustment in the APA is of the angle of the laser generator 12 with respect to the main body.

Similarly, new independent claim 22 recites, among other limitations, that the main body has a main seat body 313 and a front seat 312, and that the adjusting device 34 adjusts the angle of the front seat 312 with respect to the main seat body 313. In contrast, the APA does not teach or suggest the adjustment of two different portions of the main body of the module 1. The only adjustment in the APA is of the angle of the laser generator 12 with respect to the main body.

In light of the above, new claims 18-25 are submitted to be allowable over the APA.

Thus, pending claims 11-25 are submitted to be in condition for allowance. The Examiner is encouraged to telephone the undersigned if there are informalities that can be resolved in a phone conversation, or if the Examiner has any ideas or suggestions for further advancing the prosecution of this case.

Respectfully Submitted,

Raymond Sun
Attorney for Applicant
